

Resident Council Meeting

Date: 8/20/21

Attendees: Lexi McCausland, John Ellis, Lindsey Soffe, Annie Pond, Valerie Green, Daniel Frentress, Mariah Robinson

Issues and Projects

Unresolved/Upcoming

- Encourage use of RC Facebook pages and text line. Post on Facebook, include info on email signatures.
- First RC newsletter to be completed by Aug 30 and posted in September.
- Community centers set to open mid-September. Currently testing the online reservation system. Key attendant to be hired.
- Recycling. Share info about local recycling resources (glass, etc.) on FB page.
- Bidets cannot be installed, can cause plumbing damage. If resident requires one due to religious reasons or disability, accommodation can be made through The [Center for Disability and Access](#) or through the [Dean of Students'](#) office.
- Council walk-through with RAs to be completed by the end of August.

Resolved

- Laundry. Residents send information and concerns directly to USA administration (Valerie Green at vgreen@usa.utah.edu) including specific court and building. Possibility of re-doing survey.
- Community market/yard sale. Due to availability and currently existing large-scale programming, RC will not be able to sponsor a village market/yard sale this quarter. However, if residents/RAs/courts want to arrange one themselves, RC can help send out information about dates/times. If interest continues, we can plan a large-scale one in the spring. (Consider putting information in newsletter/Facebook).
- Med Towers window cleaning. Have cleaned them in the past but the benefits last very shortly and the cost is very large.

Newsletter

- New hires
 - Program Coordinator: Brette Barney
 - Community Club Coordinator: Amy Wilson
 - Cultural Fusion Coordinator: Punyavathi Arunkumar
- Recycling resources
- Include links along with QR code
- Printing to be determined based on budget
- Final draft completed and sent to printer by Aug 30 at noon
